INTRANET ARTICLE, POST OR UPDATE SECTION

We offer our employees Salary Packaging!

Pay for everyday items using pre-tax dollars.

Salary Packaging makes it possible to pay for selected everyday items and expenses from your pre-tax salary.

Not only can it reduce your taxable income, but Salary Packaging also aims to put more money in your pocket. Salary Packaging is an ATO approved method of restructuring your salary by reducing the tax you pay and increasing your net take home pay.

When you Salary Package, money for certain personal expenses (called benefits) is deducted or 'sacrificed' from your salary before tax is taken out. You then only pay tax on the remaining portion of your salary.

The packaged amount plus the remainder result in an increased take home salary, making salary packaging an attractive option.

Contact us to discuss your eligibility to Salary Package and how much you can save given your individual circumstances.

Salary packaging a car

On top of the certain personal expenses (benefits) that you're eligible to cap, you are also allowed to salary package a car (Novated Leasing) – where the purchase of your next car and certain car expenses can be sourced and managed by the friendly team at Eziway.
